

ADM-NR8 Series Simplex Rotary Pouch Filling

The ADM-NR-S premade pouch machine is a rotary machine that enables high speed packing of both liquid and dry product. The ADM-NR-S has a small footprint and can be operated by a single operator. With a quick change over time and the ability to pack up to 50 bags per minute the

Dry Fill

Dry filling can be achieved by use of a multihead weigher, auger filler or volumetric filler. The ADM-NR-S can talk to these filling equipments with ease. Optional dust extraction system can be added for dusty products.

Liquid Fill

With the emphasis on sanitary filling conditions, the ADM-NR-S can be built to an IP65 rated system. Use of a liquid filling can easily be performed on the ADM-NR-S series machine.
