

ADM– XL Series VFFS for Animal and Garden Products

Feature

- Stainless Steel Construction
- Servo Motor Controlled Film Pull Belts
- Servo Motor Controlled Jaw Seal Actuation
- Panasonic Touch Screen Operator Interface
- Panasonic PLC - Based Control System
- Ethernet/IP Central Control system
- SMC Pneumatics Advanced Integration
- Vacuum Belt Drive option
- Safety Guarding and Interlocks to AS4024

Manufactured Locally in Victoria Australia, the large model Vertical Form Fill Seal (VFFS) machine brings several advantages, especially for high-volume packaging needs. These machines can handle larger quantities of product per cycle, significantly increasing throughput and efficiency. They are ideal for bulk packaging, reducing the frequency of refills and downtime. Additionally, large VFFS models often come with advanced features such as enhanced sealing capabilities and more robust construction, ensuring durability and reliability even in demanding industrial environments

- For animal feeds, they are also suitable for packaging soil, fertilizers, seeds, and other gardening products and more
- For Gardening supplies, they are also suitable for packaging soil, fertilizers, seeds, and other gardening products and more.

Available options

- Pillow bags
- Block Bottom bags
- Gas Flush
- Vacuum seal
- Impulse seal
- Continuous seal

Model	ADM-XLi400 Intermittent	ADM-XLi600 Intermittent	ADM-XLi800 Intermittent
Environment	Wet & Dry	Wet & Dry	Wet & Dry
Bag type	Refer above	Refer above	Refer above
Bag Sizes	120-400mm	200-600mm	250-800mm
Repeat Length	550mm or 1100mm(2 stroke)	900mm or 1800mm(2 stroke)	1200mm plus
Film width	850mm	1300mm	1700mm
Rewind Diameter	500mm max	550mm max	600mm max
Speed	Max:80bpm	Max:40bpm	Max:20bpm
Power supply	415V 50Hz 5.0kW	415V 50Hz 6.0kW	415V 50Hz 7.0kW
Air pressure	0.3m3/min 0.6MPa	0.3m3/min 0.6MPa	0.3m3/min 0.6MPa
